WE ARE CLOSERZ

COMMISSION-BASED CLOSING FOR HIGH-TICKET COACHES

CLOSE MORE WARM LEADS. PAY ONLY FOR RESULTS.

We handle sales calls and follow-ups for coaches and mentors with established £3,000+ programmes. You keep creating and delivering. We turn more applications and booked calls into enrolled clients — on a performance basis.

3+ Years	£3k+	Commission	Warm Leads
Hands-on sales experience	Typical programme price	You only pay when we close	Applications & booked calls

ABOUT WE ARE CLOSERZ

Built on real sales experience, not theory.

We Are Closerz is a commission-based sales closing partner for coaches and mentors running £3,000+ programmes. You keep creating — we turn applications and booked calls into enrolled clients.

WHAT MAKES US DIFFERENT

Specialised, not founder-led

Closers focused only on high-ticket coaching conversations typically outperform founder-led closing over time.

Warm leads only

We work with your existing applications, booked calls, and inbound inquiries — we don't generate cold traffic.

Commission-based

You only pay when we close a client. Exact terms are agreed during the strategy call based on your offer.

WHAT IT MEANS FOR YOU

01

Higher close rate

Specialised closers focused only on high-ticket coaching conversations typically outperform founder-led closing over time.

02

More follow-up

Leads that don't close on the first call get structured nurture instead of going cold.

03

Founder time back

You stay in content, delivery, and strategy while sales conversations are handled.

WHAT WE HANDLE

Everything between a warm lead and an enrolled client.

We handle the conversations. You keep creating, delivering, and running your programme.

Sales Calls

We take the discovery and closing calls with people who have already applied or booked time with you.

Application Follow-Up

Structured nurture for people who applied but didn't book, or booked but didn't decide on the first call.

Objection Handling

Conversations tailored to the common concerns of high-ticket coaching and mentorship buyers.

Clear Reporting

Visibility on calls taken, outcomes, and enrolments so you always know what's happening.

HOW IT WORKS

01 **Align on your programme**

We go through your offer, pricing, ideal client, and how you currently speak about results so we can represent it accurately.

02 **You send warm leads**

Applications, booked calls, or inbound inquiries from your content and bio links. We handle the conversations from there.

03 **We close and report**

Calls are taken, follow-ups are done, and you receive clear updates on activity and results. You only pay when we close.

RESULTS THAT MATTER

Companies we've worked with.

16–18%

Average close rate across these companies.

In every engagement, experienced closers replaced less experienced sales support, and the results followed.

IBC Group

Blockchain consulting and investment firm founded by Mario Nawfal. Focused on Web3 projects, incubation, and growth.

$1.8M+	$200k+
Funds raised	Revenue in under 3 months

THE CHALLENGE

Inbound demand was being handled by less experienced marketers and closers. Qualified prospects went cold and the follow-up workflow leaked pipeline.

WHAT WE DID

We replaced that setup with experienced closers fluent in high-value Web3 deals, running structured discovery and delivering a clear, confident pitch for IBC Group's consulting and incubation solutions.

THE RESULT

Cold leads converted into closed deals. Over $1.8M in funds raised for IBC Group, and $200k+ in revenue generated in under 3 months from selling consulting services.

KIR.finance

kir.finance

Complete US business infrastructure for international and crypto-native founders: Wyoming LLC, EIN, US banking, crypto accounts and global card delivery.

50%+	$15,000
Of their total deals closed by us	Package price

THE OFFER

A $15,000 one-time package: Wyoming LLC, EIN, US business banking, crypto account setup and international card delivery. Company formed in 10 days, bank account live in 27.

WHAT WE DID

Our closers took the sales conversations, walking international and crypto-native founders through scope, timelines and pricing, and closing the deals.

THE RESULT

We closed over 50% of the total deals KIR.finance has done.

GatesWeb

AI marketing and business automation agency helping brands scale with intelligent systems.

45%+
Scale achieved

THE CHALLENGE

Prospects lost momentum between enquiry and decision as less experienced marketers and closers ran conversations inside a flawed sales workflow.

WHAT WE DID

Professional closers took over every call and matched the right GatesWeb solution to each prospect's business needs, closing deals with a number of brokers.

THE RESULT

A tighter pipeline and scale of over 45%, backed by the expertise of We Are Closerz founder Hamzah K.

M&M Stars LLC

Influencer marketing agency pairing brands with top creators across Instagram, TikTok, YouTube and X.

60%+
Of their deals closed by us

7
Creators onboarded

4
Markets: US, UK, Canada, Europe

THE CHALLENGE

Brand enquiries cooled before converting to signed work, compounded by inexperienced sales calls and an inconsistent follow-up cadence.

WHAT WE DID

We took charge of customer relations, presenting M&M Stars' creator partnerships as the right fit and closing deals with individuals and companies across the US, UK, Canada and Europe.

THE RESULT

Over 60% of M&M Stars' deals closed by us, with warmer conversations, less lead leakage and 7 creators onboarded.

RantiDevs

rantidevs.org

Digital product studio building websites, brand systems and software for growing businesses.

3 of 3
Projects closed

$4,500
Total deal value ($1,500 each)

THE CHALLENGE

A new startup with a lean project pipeline, capped at 3 projects at $1,500 each, so every deal had to convert.

WHAT WE DID

Seasoned closers took ownership of the pipeline, matched RantiDevs' services to each client's goals and closed the deals through direct, professional conversations, on a commission basis.

THE RESULT

All 3 projects closed at $1,500 each ($4,500 in total), with commission paid on every deal.

Configured AI

configuredai.space

AI configuration and automation platform helping teams set up and deploy AI tooling faster.

$2,000
Custom package closed

THE CHALLENGE

Interest in the platform faded because leads were handled by less experienced closers with no clear qualification or follow-up process.

WHAT WE DID

We implemented strategies to move prospects onto discovery calls, then took the conversations and explained exactly how Configured AI would work for each team's setup.

THE RESULT

A custom $2,000 package closed, priced to the specific needs of the company.
